

SUSTAINABILITY REPORTING MADE SIMPLE FOR ORGANIZATIONS

COURSE CODE: TGS-2025052524

Simplify sustainability reporting with this practical course. Learn ESG fundamentals, the importance of reporting, and regional trends like SGX guidelines. Gain skills in setting report objectives, structuring reports, and aligning them with organizational goals.

Explore GRI standards across economic, environmental, and social aspects. Practice stakeholder collaboration, effective report writing, and data presentation. By the end, you'll be ready to proofread, finalize, and deliver professional reports that meet global standards and communicate performance clearly.

Mode of Training

Classroom

3 Days (9:00 AM - 6:00 PM)

Topic 1: Overview of Sustainability Reporting

- What sustainability and ESG mean, including risks and opportunities
- Benefits and objectives of sustainability reporting
